Now patients can take back their tummies!

Help your patients prevent embarrassing gas and bloating caused by certain foods with Beano. Complex carbohydrates, such as those found in many healthy foods including legumes, whole grains, and vegetables can lead to flatulence, digestive discomfort, and cramping. Beano breaks down complex carbohydrates in foods, ensuring they remain more digestible.

Contains an enzyme from a natural source to work with the body’s natural digestive process for on-the-go relief.

Convenient tablets and fast dissolving meltaways for easy to meet daily fiber requirements.

Help your patients support their digestive health with Digestive Advantage®. Talk to your wholesaler to order today.

FiberChoice® dietary supplements are simple, convenient, and contain 100% natural prebiotic inulin fiber, the same natural fiber that’s found in fruits and vegetables. They not only provide the regular benefits of fiber, but they also help support the immune system, digestive tract, and overall health.

• Contains soluble fiber and prebiotic fiber for healthy digestion.
• Just two tablets or gummies per serving, making it easy to meet daily fiber requirements.
• No water needed!

Are your patients still experiencing heartburn, even after taking a 24-hour medicine?
