

2020 New Item Alert Schedule

If your new items belong on the shelves of community pharmacies, make sure they are reviewed by our expert new item review team. Every month, thousands of pharmacies and buyers for pharmaceutical distributors rely on our New Item Alert and other communications to learn what new HBW items they need to order, stock, and recommend.

Our analysts review thousands of new items every year and rate each one* based on these criteria:

- Product orientation
- Earnings potential
- Product innovation
- Promotional support
- Category trends

Items that receive our 3-star rating are included in all category specific planograms we provide to retailers. A 2-star rating lands your new item in all large- and medium-sized planograms. Finally, we include 1-star items in large-sized planograms.

Call Hamacher Resource Group today and allow us to tell you more about how our category management expertise can help you address your challenges and reach your goals.

- * We may not assign a star rating to an item if we receive insufficient data or if the item does not rank high enough according to our criteria.
- ** New items are accepted for review at any time of year, regardless of what month their category is reviewed.

The Product Library Driving Drugstore Assortments

Ensure your brand is included

It's no secret that you have the potential to sell more products if consumers can easily find them at shelf. But have you ever wondered how drugstores choose which health, beauty, and wellness (HBW) items to stock and how to price them? They rely on HRG for data-driven category management strategies developed to put the brands that meet consumer demand on shelf.

Our category management strategies are second to none because of the current, reliable product data that manufacturers like you send to us annually or as changes are made to your brand. It's important that you send us your product(s) and share your pricing information so when we deliver our planograms, pricing files, and point-of-sale databases to our industry-wide client base they are accurate and comprehensive. It also ensures that your brand is properly represented in our database when our analysts review its category each year for planogram inclusion.

To ensure your products are accurate and up-to-date in our library...

please send HRG final product packaging annually or as changes are made. We photograph all packaging in-house to ensure best-in-class images and standardization. Additionally, please provide [your complete price list annually or as changes are made](#):

- Product description
- Highest wholesale cost or average wholesale price
- UPC and/or GTIN
- Suggested retail price
- Additions/deletions/changes

Submitting the following information ensures your products are considered for our planograms:

- Merchandising recommendations
- Priority ranking of your products to accommodate smaller-sized planograms
- Key industry trends shaping the category
- Promotional spending for full line
- Target market and outlet distribution
- National ship date
- Information on drug, food, mass, and convenience store dollar sales and % ACV distribution (e.g., IRI, ACNielsen)
- Consumer demographics, including buying behaviors and patterns

To add your **new items** (those introduced within the last 12 months or about to be launched), to our library please provide this information:

- UPC, cost, and product description
- Suggested retail prices
- Final packaging
- Promotional support activities and budget
- Suggested category and shelf placement
